

Bombardier Pūr Air

Cabin air that's pure and clean

BOMBARDIER

How “fresh” is the air in your cabin?

Bombardier Pür Air is a sophisticated air purification and circulation system featuring an advanced HEPA filter that rapidly purifies and replaces the cabin air. Available exclusively on Global aircraft, Bombardier Pür Air delivers cleaner air with better humidity and quicker heating and cooling than 100% fresh air only systems.

Up to 99.99% efficiency

Bombardier Pür Air cleans the air through a HEPA filter—something 100% fresh air systems don't typically have—capturing up to 99.99%¹ of particles from the air passing through it, including viruses, allergens and bacteria. The system's activated carbon filter² also removes volatile organic compounds (VOCs), odors and gases.

Better preserves humidity

Bombardier Pür Air better preserves humidity when compared with 100% fresh air only systems. Increased humidity helps promote respiratory comfort, reduces nasal discomfort and improves dermatological health due to moisture retention.

Fastest fresh air replacement

The Bombardier Pür Air system is the fastest fresh air delivery system in the industry, up to 25% faster than the competition. Capable of completely refreshing the cabin with 100% fresh air in as little as 90 seconds, Bombardier Pür Air improves circulation and helps to eliminate pockets of stagnant air.

Heats and cools twice as quickly

Bombardier Pür Air heats and cools the cabin twice as fast as an aircraft using a 100% fresh air only setting. In testing, Bombardier Pür Air was able to achieve the desired cabin temperature in half the time when compared with a 100% fresh air setting.

Breathe easy with Bombardier Pür Air, exclusively on the Global family of business jets.

1 The HEPA filter on the Global 8000, Global 7500 and Global 6500 aircraft have a demonstrated test efficiency of up to 99.99% in capturing particles 0.3 microns in size, versus the minimum efficiency of 99.97% for the HEPA standard. 2 Available on Global 8000 and Global 7500 aircraft only.
