

**Bombardier**

# 4G Air-to-Ground Connectivity

All Bombardier Global, Bombardier Challenger and Bombardier Learjet\* aircraft

\*Available on Learjet 40/45/70/75 aircraft.

# 4G Air-to-Ground Connectivity

Designed specifically for business aircraft, the 4G air-to-ground (ATG) connectivity system with augmented connectivity in audio and video streaming, offers a vastly improved user experience compared to traditional 3G systems.

## CONNECT, STREAM, WATCH & COMMUNICATE

With 4G ATG, users can enjoy the following activities while in flight:

- Fast web surfing
- Video streaming
- Audio streaming
- Email with attachments
- Voice service
- Text & Talk using your personal phone

Passengers will be as productive in-flight as in the office and free to enjoy their favourite entertainment.

With multiple voice and data packages available, this air-to-ground system delivers full internet access, including streaming, and can connect up to 40 devices simultaneously.\*

## SEAMLESS, RELIABLE COVERAGE

The lightweight and compact hardware offers new and significantly faster services, leveraging a network of 250 towers, providing reliable coverage over the continental US, parts of Alaska and large areas of Canada.

## INTEGRATED IN-FLIGHT CONNECTIVITY

Featuring the latest air-to-ground internet connectivity, 4G ATG unleashes the performance you need in-flight. When used in conjunction with compatible Cabin Management Systems onboard Bombardier aircraft, the system offers the possibility to relay content throughout the cabin for an immersive entertainment experience.
