Bombardier Global Express, Bombardier Global XRS and Bombardier Global 5000

# Honeywell Primus Elite<sup>®</sup> Upgrade

The Honeywell DU-875 Primus Elite<sup>®</sup> upgrade consists of Enhanced Features and Advanced Features\* options, which can be incorporated simultaneously. Alternatively select Advanced Features if your aircraft already includes the Enhanced Features option. This upgrade is designed to enhance situational awareness and safety for Bombardier Global Express, 5000 and XRS aircraft equipped with the Honeywell Primus avionics system.

## CUTTING-EDGE LCD DISPLAYS

The Honeywell DU-875 Primus Elite<sup>®</sup> Enhanced Features option replaces the CRT cockpit displays with 6 state-of-the-art LCD displays and takes advantage of future technologies currently available on newer aircraft for improved situational awareness.

### Benefits include:

- Jeppesen charts<sup>1</sup>
- Moving Maps capability<sup>1</sup>
- Split screen and own ship position functionality
- Enhanced graphical features
- Up to 42 pounds of total weight savings
- May increase aircraft value<sup>2</sup>

## HONEYWELL SYNTHETIC VISION SYSTEM (SVS)

The Honeywell DU-875 Primus Elite<sup>®</sup> Advanced Features option includes the installation of a Synthetic Vision System (SVS). SVS is an advanced terrain mapping and visualization tool which assists flight crews in making necessary short-term decisions to enhance safety in all phases of flight. The installation of SVS can be performed in addition to the Enhanced Features upgrade or as a standalone upgrade.

### Benefits include:

- Advanced terrain mapping
- Reduced pilot workload
- Better and more accurate approaches
- Improved geographical situational awareness in low visibility conditions
- Enhanced wall-to-wall colour Attitude Display Indicator (ADI)
